Dr. Hauschka

In the 1960s, esthetician/formulator Elisabeth Sigmund and chemist Dr. Rudolf Hauschka developed a revolutionary line of skin care with natural ingredients and ground-breaking methodologies that promoted skin health as a means toward achieving a radiant, glowing complexion.

For over four decades, Dr. Hauschka Skin Care has grown the highest quality botanicals, harvesting them at the peak of their potency so that they may harness the power of the living plant and capture it in their products.

The result is a line of highly effective products that are carefully formulated and manufactured to retain the essence and energies of their natural ingredients. These properties are then transferred to your skin, imbuing it with the beauty, life and vitality of nature itself.

Dr. Hauschka products are suitable for all ages from pregnancy, baby to adulthood.
